

OFFICE OF POLICE AND CRIME COMMISSIONER FOR WEST YORKSHIRE

Record of decision made by the Police and Crime Commissioner

Title/Subject: Feelings of safety survey

Summary and recommendations: The questionnaire has already been constructed, piloted and agreed. The decision taken here was around the sample size to be used. The recommendation was for a sample to be undertaken that will allow approximately 5,000 responses across districts in West Yorkshire, allowing some local exploration of wider issues of safety from communities who may or may not access services, which should allow the police and partner agencies to improve activities in those areas identified as a concern. Recommendations also for the survey to be repeated at the same time each year, for content analysis of media activity to be undertaken to inform some of the responses, and to attempt to gather a small sample of respondents so that responses can be monitored over time to track changes.
